ASX granted the waiver as follows:

1. Based solely on the information provided, ASX Limited ('ASX') grants Native Mineral Resources Holdings Limited ('NMR') a waiver from Listing rule 1.1 Condition 12 to the extent necessary to permit NMR to have on issue 1,682,000 options with a nil exercise price issued under its Employee Share Option Plan on condition that the material terms and conditions of the options are clearly disclosed in NMR's initial public offering prospectus.

2. ASX has considered Listing Rule 1.1 Condition 12 only and makes no statement as to NMR's compliance with other listing rules

Basis for Waiver Decision

Listing Rule 1.1 Condition 12

3. If an entity seeking admission to the official list has options or performance rights on issue, the exercise price for each underlying security must be at least 20 cents in cash. This rule supports listing rule 2.1 condition 2 which requires the issue price or sale price of all the securities for which an entity is seeking quotation (except options) upon admission to the official list to be at least 20 cents in cash. These requirements together support the integrity of the ASX market, as they demonstrate that the entity's ordinary securities have a minimum value suitable for a listed entity.

Facts and Reasons for granting the waiver

4. NMR has applied for admission to the official list of ASX. NMR will have on issue options with a nil exercise price. The options in aggregate represent 1.98% of the undiluted total issued capital of NMR at the time of listing (at maximum subscription under the Offer). The waiver is granted on the basis the number of options on a post admission basis is not considered material and therefore their existence will not undermine the integrity of the 20 cent rule. A summary of the material terms and conditions of the options has been clearly disclosed in NMR's initial public offering prospectus.
